## Basic Steps in the Income Withholding Process

This chart shows:

- Standard sequence of events in the process.
- Responsibilities of those involved.
- Points at which calculations are carried out.
- Points at which specific documents are implemented.

## Location Key for System Fields Used in the Income Withholding Process

This chart lists:

- CSMS fields used in the income withholding process, in alphabetical order.
- CSMS screen where the field appears.
- Location of the corresponding field in the ASSETS Inquiry module.

Some fields appear on more than one screen or tab; this table lists only one of the commonly-viewed locations where the fields appear.

### CSMS

**field**                      **screen**

IEX-ADD-AMT      IVDQFS

→

### ASSETS

**mode**                      **tab**                      **field**

Enforcement      IWO/UIB      IWO Additional Amount

IEX-ALT-AMT      IVDQFS

→

Enforcement      IWO/UIB      IWO Alternate Amount

IEX-ALT-FRQ      IVDQFS

→

Enforcement      IWO/UIB      IWO Alternate Frequency

IEX-OBLIG-AMT      IVDQFS

→

Enforcement      IWO/UIB      IWO Amount

LDGR TYPE      IVDQFS

→

Summary      Obligation      Type  
(column in Ledgers table)

NET-DUE      IVDQFS

→

Summary      Obligation      Net Due Amt  
(column in Ledgers table)

OBLIG AMT      IVDQFS

→

Summary      Obligation      Obligation Amt  
(column in Ledgers table)

OBLIG FREQ      IVDQFS

→

Summary      Obligation      Freq  
(column in Ledgers table)

ST      IVDQFS

→

Summary      Obligation      Status  
(column in Ledgers table)

## How the Total Amount on the IWO is Determined

The “Total Amount to Withhold” on the IWO (Income Withholding Order / Notice for Support) is the amount the employer is being directed to withhold and remit. The Total Amount is determined by, and matches, the amount in the IWO Amount field of the account.

The amount in the IWO Amount field is calculated by the system as:

1	<b>Current obligation:</b> the sum of all amounts in the Obligation Amt column for all ledgers with 1 in the second position of the Type field and simultaneously 01 in the Status field
+	
2	<b>Additional amount:</b> amount that appears in IWO Additional Amount field
+	
3	<b>Court-ordered arrears for which the court set a repayment schedule:</b> the sum of all amounts in the Obligation Amt column for all ledgers with 2 in the second position of the Type field and simultaneously 01 in the Status field

## How the System Calculates the IWO Additional Amount

If an account is in arrears, the SCU is required by law to collect those arrears by adding an additional amount to the court-ordered support obligation [CPLR 5241(b)(1)]. The additional amount appears in the IWO Additional Amount field on the system and in the ORDER INFORMATION section of the IWO (Income Withholding Order / Notice for Support).

The additional amount for each account is automatically calculated by the system according to a formula in state regulation [18 NYCRR 347.9(e)]. To perform the calculation, the system examines specific combinations of two primary factors:

1. Status of the current obligation: A current obligation is indicated by a ledger with: 1 in the second position of the Type field, 01 in the Status field, and an amount other than \$0.00 in the Obligation Amt field.
2. Amount of arrears: The amount of arrears is the sum of the amounts in the Net Due Amt column for all ledgers with 01 in the Status field.

This chart indicates the additional amount that will result from the combinations of those factors:

<b>If</b>	<b>and</b>	<b>then the system-calculated IWO additional amount, until arrears are paid in full, is</b>
there is a current obligation amount	there are arrears	half of the current obligation amount, payable at the same frequency as the current obligation.
there was a current obligation amount but there no longer is one	arrears are greater than \$300	the most recent current obligation amount that was greater than zero, times 1.5, payable at the same frequency as that most-recent current obligation.  (150% of the most recent current obligation amount that was greater than zero.)
there never has been a current obligation amount	arrears are greater than \$300	the total amount of arrears divided by twelve, payable monthly.
there is no current obligation amount	arrears are \$100 to \$300	\$25 per month.
there is no current obligation amount	arrears are less than \$100	\$0 – the case will not be included in the income withholding process and no IWO will be generated.

## SCU Actions for Request for Review of Additional Amount Based on Self-Support Reserve

- ☐ 1 Receive from noncustodial parent:
  - ☐ *Request for Review of the Additional Amount on the Income Withholding for Support*
  - ☐ documentation that supports request

### Complete these actions within 30 calendar days of receiving request:

- ☐ 2 In account record (Case mode > Status tab), set status and reason code H001-06.
- ☐ 3 Review:
  - ☐ *Request for Review of the Additional Amount on the Income Withholding for Support*
  - ☐ documentation submitted by noncustodial parent to support request
  - ☐ account record, to check for:
    - ☐ income from multiple employers
    - ☐ income from self-employment
    - ☐ court-imputed income
- ☐ 4 If noncustodial parent listed multiple case IDs for multiple counties, use ASSETS to get obligation info for accounts in other counties.
- ☐ 5 Using obligation and income info, complete worksheet [Alternate Additional Amount Calculation for Self-Support Reserve Issues](#) (on ERS at Resource Index > [Income Withholding](#)).
- ☐ 6A If worksheet result shows that additional amount **needs** to be changed:
  - ☐ In account record (Enforcement mode > IWO/UIB tab), update IWO Alternate Amount & Frequency fields using alternate additional amount calculated per worksheet.
  - ☐ Complete [SCU Determination Letter](#) (on ERS at Resource Index > [Income Withholding](#)), indicating request has been granted.
  - ☐ Send determination letter to noncustodial parent.
  - ☐ In account record (Case mode > Status tab), set status and reason code H901-06.
  - ☐ Set tickler date for no later than one year, and when tickler date is reached, review account to see if additional amount can be increased.
- OR
- ☐ 6B If worksheet result shows that additional amount **does not need** to be changed:
  - ☐ Complete [SCU Determination Letter](#) (on ERS at Resource Index > [Income Withholding](#)), indicating request has been denied.
  - ☐ Send determination letter to noncustodial parent.
  - ☐ In account record (Case mode > Status tab), set status and reason code H801-06.

## SCU Actions for Request for Review of Additional Amount Based on Custody

- ☐ 1 Receive from noncustodial parent:
  - ☐ *Request for Review of the Additional Amount on the Income Withholding for Support*
  - ☐ *Statement of Income and Expenses*
  - ☐ documentation that supports request

### Complete these actions within 30 calendar days of receiving request:

- ☐ 2 In account record (Case mode > Status tab), set status and reason code H001-07.
- ☐ 3 Review:
  - ☐ *Request for Review of the Additional Amount on the Income Withholding for Support*
  - ☐ *Statement of Income and Expenses*
  - ☐ documentation submitted by noncustodial parent to support request
  - ☐ account record, to check for:
    - ☐ income from multiple employers
    - ☐ income from self-employment
    - ☐ court-imputed income
- ☐ 4 If noncustodial parent listed multiple case IDs for multiple counties, use ASSETS to get obligation info for accounts in other counties.
- ☐ 5 Using obligation and income info, complete worksheet [Alternate Additional Amount Calculation for Custody Issues](#) (on ERS at Resource Index > [Income Withholding](#)).
- ☐ 6 Compare result of worksheet calculation with additional amount in place at present.
- ☐ 7A If worksheet result is **lower** than additional amount in place at present:
  - ☐ In account record (Enforcement mode > IWO/UIB tab), update IWO Alternate Amount & Frequency fields using alternate additional amount calculated per worksheet.
  - ☐ Complete [SCU Determination Letter](#) (on ERS at Resource Index > [Income Withholding](#)), indicating request has been granted.
  - ☐ Send determination letter to noncustodial parent.
  - ☐ In account record (Case mode > Status tab), set status and reason code H901-07.
  - ☐ Set tickler date for no later than one year, and when tickler date is reached, review account to see if additional amount can be increased.
- OR
- ☐ 7B If worksheet result is **equal to or higher** than additional amount in place at present:
  - ☐ Complete [SCU Determination Letter](#) (on ERS at Resource Index > [Income Withholding](#)), indicating request has been denied.
  - ☐ Send determination letter to noncustodial parent.
  - ☐ In account record (Case mode > Status tab), set status and reason code H801-07.

## Impact of Setting an Alternate Additional Amount

If an alternate additional amount is set:

- An amended IWO will be generated (there's no need to change a delinquency switch or other code – setting an alternate additional amount and frequency will initiate the amended IWO).
  - On the amended IWO, the manually-set alternate additional amount will be used in the calculation of the Total Amount to Withhold that appears on the IWO and in the IWO Amount field.
  - After the amended IWO has been generated, the value set in the IWO Alternate Amount field will also appear in the IWO Additional Amount field. (In other words, in the account record, the manually-set dollar amount will replace the system-calculated dollar amount that *had been* in the field for the IWO Additional Amount.)
- 

## Follow-up to Setting an Alternate Additional Amount

After an alternate additional amount has been manually set:

- If a New Hire or Workers' Comp lead results in a new employer record being automatically built, any alternate additional amount will be *automatically* cleared and a system-calculated additional amount will be used in the IWO generated for that record.
- If the order is modified through court or adjusted by COLA, any alternate additional amount must be *manually* cleared in the account record (Enforcement mode > IWO/UIB tab), by updating the IWO Alternate Amount & Frequency fields with blank values.

Using blank values for both fields causes the alternate additional amount to be cleared completely and prompts the system to calculate the additional amount per the factors in the chart on page 8. An amended IWO will then be generated, which will include the system-calculated additional amount.
